

CONTRACTOR
MOULDING
CATALOG

The American Dream — building something from nothing. That's what contractors do. And building isn't just a job, it's a passion. Our founder, Christian Ganahl, knew a thing or two about building and passion. An Austrian shopkeeper, he moved to Los Angeles from St. Louis, and with building flourishing in Southern California, he saw a need to support local contractors. In 1884, he sold his first stick of lumber and today millions of board feet are sold every year — more than Christian could have ever dreamed.

The depth of our heritage and passion is evident in everything we do here at Ganahl Lumber Company. It's ingrained in the customer experience — from knowledgeable people and diverse product lines to intuitive yard layout and the exceptional value our customers enjoy every day.

Family is the best word to describe Ganahl Lumber Company—our family and yours: generations building something together, the American Dream.

CONTRACTOR MOULDING

CATALOG

TOOLS OF THE TRADE

Throughout the catalog **look for these symbols** for techniques and ideas you can use to work smarter and finish faster.

PRO TIP
Glue both sides of every miter.

MAJESTIC *Mantels*

Majestic Mantels™ are constructed using solid Oak and Poplar and a more economical version constructed of Primed MDF.

This style of shelf is a “flush mount”, and bottom projection is 3-1/4 inches. Shelves are available in 2'- 6' lengths, and 9 different styles (custom lengths available).

The Majestic Mantels™ Surround Kit is the perfect way to complete the look of your fireplace. Each kit contains all the necessary hardware and can be easily assembled, whether you're a DIYer or a licensed contractor.

Available in **Wellington** (detailed) and **Springfield** (plain), both kits are ready for finishing right out of the box and work with most standard firebox openings.

Plain Surround Kit

PART#	SPECIES
SURROUND-O	Oak
SURROUNDP	Poplar
SURROUNDM	MDF

Springfield Pilaster Kit

What's the Story?

Whether it's antique old growth barn wood or beams and flooring salvaged from historic structures, reclaimed wood adds more than texture and warmth to your projects—it adds value because it tells a story.

Bolt holes, knots and decades of Mother Nature's handywork create real character that makes every piece one-of-a-kind. Reclaimed wood also offers unlimited options when you need materials that satisfy LEED criteria and hold up well over time.

Add personality and a slice of history to your next project with a variety of reclaimed wood species, exclusively from Ganahl Lumber and Mission Bell.
Create projects that tell a story.
